BOIL WATER NOTICE FOR COMMUNITY PUBLIC WATER SYSTEM

FEBRUARY 19, 2021

Due to **precautionary reasons**, nearly all local entities are notifying customers to boil their water prior to consumption (e.g., washing hands/face, brushing teeth, drinking, etc). Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all customers should follow these directions).

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and ice making should be boiled and cooled prior to use for drinking water or human consumption purposes. The water should be brought to a vigorous rolling boil and then boiled for two minutes.

In lieu of boiling, individuals may purchase bottled water or obtain water from some other suitable source for drinking water or human consumption purposes.

When it is no longer necessary to boil the water, the public water system officials will notify customers that the water is safe for drinking water or human consumption purposes.

Once the boil water notice is no longer in effect, the public water system will issue a notice to customers that rescinds the boil water notice in a manner similar to this notice.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses).

If you have questions concerning this matter, you may contact City of Lytle PWS ID#0070004 at 14916 Main St., Lytle, TX 78052, (830) 709-3692 or you can contact, Mayor Ruben Gonzalez (210) 897-6507, James McGrath (210) 685-7708 or Josie Campa (830) 772-4483.
